OBSERVATIONS ON THE EMIGRATION STATISTICS OF IRELAND FOR THE YEAR 1883.

TO HIS EXCELLENCY JOHN POYNTZ, EARL SPENCER, K.G.
Ac., Ac., Ac.,

LORD LIEUTENANT-GENERAL AND GENERAL GOVERNOR OF IRELAND.

MAY IT PLEASE YOUR EXCELLENCY,

I beg to forward detailed tables showing by ages and occupations the number of Emigrants from Ireland during the year 1883, with the ports at which they embarked and their intended destinations.

The number of Emigrants who left Irish ports in 1883 was 108,916, an increase of 19,350 as compared with 1882; the number of males being 55,393, or 8,147 more than in the previous year, and of females, 53,523, an increase of 11,203.

Of the 108,916 Emigrants in 1883, 108,724 were natives of Ireland, and 192 were persons belonging to other countries.

The following Table (I.) gives the number of Emigrants from each province in 1882 and 1883, by sexes, and the increase in the latter year. Of the 108,724 persons—natives of Ireland—who left in 1883, 20,708, or 16.2 per 1,000 of the population of the Province in 1881, were from Leinster; 29,279, or 22.0 per 1,000, from Munster; 29,918, or 17.2 per 1,000, from Ulster; and 28,819, or 35.1 per 1,000, from Connaught—the total number being equal to 21.0 per 1,000 of the population of Ireland in 1881.

Comparing 1883 with 1882, Leinster exhibits an increase of 4,651, Munster of 431, Ulster of 3,837, and Connaught of 10,669 persons.

The total number of Emigrants—natives of Ireland—who left the Irish ports from the 1st of May, 1851 (the date at which the collection of these returns commenced), to the 31st of December, 1883, is 2,913,464,—1,548,824 males and 1,364,640 females. The number for each year is given in the following Table (II.), from which it appears that emigration from Ireland steadily increased from 37,587 in 1876—the year in which the smallest number was registered—to 38,503 in 1877, 41,124 in 1878, 47,065 in 1879, whilst in 1880 the number rose to 95,517, but fell in 1881 to 78,417. In 1882, however, an increase of 10,719 took place, comparing that year with the previous one, and a further increase of 19,588 has occurred in 1883. In the decade from 1866 to 1875 the average annual number was 74,667, and in the preceding decade, from 1856 to 1865, the average number of Emigrants per annum amounted to 83,372, while in the four preceding years, from 1852 to 1855, the number averaged 148,985 annually. The numbers fluctuated from 190,322 in 1852 to 37,587 in 1876. The Emigration in 1883 has only been exceeded twice since 1854, viz., in 1863 and 1864.

* The date at which the collection of these Returns commenced.

Number of Emigrants from each County and Province.

The succeeding Table (III.) is in continuation of one published annually for some years past, and now gives the number and sex of the Emigrants from each county and province from the 1st of May, 1851, to the 31st of December, 1883. For purposes of comparison of the several counties and provinces the per-centage of emigrants to the population is also shown.

From this table it appears that during the above period 2,947,865 persons emigrated from Irish ports. Of these, 2,913,464 were natives of Ireland, and 34,401 were persons belonging to other countries. The former number (2,913,464) represents a proportion of 50·8 per cent. of the population;† Munster having contributed 997,219 persons, or 65·4 per cent. of the population of the province; Ulster, 858,648 or 45·8 per cent.; Connaught, 399,761, or 44·6 per cent.; and Leinster, 547,168 or 38·0 per cent. of its population. In 110,668 instances the county from which the persons came was not specified in the returns; since 1876, however, this information has been given in every instance with the exception of 53 cases in 1880.

The ages of the Emigrants are given by Provinces in Table IV., from which it appears that 67.9 per cent. of the persons who left Ireland in 1883 were between the ages of fifteen and thirty-five years, the percentage over that age being 12.0, and of children under fifteen years 20.0, and in 135 cases or 0.1 per cent. the ages were unspecified. The corresponding percentages in 1882 were 74.8, 9.8, and 15.4 respectively. The proportion of the Emigrants in 1883, who were from fifteen to thirty-five years of age, is less than in any year since 1877; in 1882 it was 74.8; in 1881, 76.0; in 1880, 75.7; in 1879, 73.2; in 1878, 68.5; and in 1877, 67.2 per cent.

On pages 8 and 9 will be found a table showing the ages of persons who emigrated from each county, and of persons belonging to other countries who embarked at Irish ports, distinguishing the sexes and conjugal condition. The only quinquennial age-period in

Age of Emigrants. which the females outnumber the males is that between fifteen and twenty, the number of females being 13,567, and of males 8,845. The quinquennial period 20-25 years furnishes the largest number of both male and female emigrants—17,912 males and 15,997 females, or 31·1 per cent. of the entire number of emigrants.

Conjugal condition. Of the 55,393 males who emigrated, 7,791, or 14·1 per cent. were returned as married or widowers, and of the 53,523 females enumerated, 10,304 or 19·3 per cent. were described as married or widows. Of the 22,412 males and females between the ages of 15 and 20, only 72 were married.

Destinations of Emigrants. Of the 108,724 natives of Ireland who emigrated in 1883, 98,623, or 90·7 per cent. went to the Colonies or to Foreign Countries; and 10,101, or 9·3 per cent. to Great Britain. The United States of America in 1883, absorbed 79,798, or 73·4 per cent. of the entire number of emigrants, compared with an average of 56,854, or 72·7 per cent. on the four preceding years. The numbers to New Zealand, decreased from 3,166 in 1879, to 1,477 in 1880, and from 492 in 1881, to 380 in 1882, but rose to 1,656 in 1883. Emigration to Canada shows a very large increase in 1883, compared with 1882, the numbers being 11,070 in 1883, and 7,368 in 1882. The emigrants to Australia in 1883, numbered 6,009, against 4,614 in 1882, 2,795 in 1881, 2,576 in 1880, and 3,052 in 1879. Of the 90 persons to "Other Countries," 41 went to Buenos Ayres, 34 to South Africa, 11 to France, and 4 to Asia.

Of the 79,798 emigrants to the United States in 1883, Munster contributed 21,167, Ulster 18,932, Connaught 23,318, and Leinster 17,381. Munster also contributed 3,037 of the 6,009 who left for Australia. Connaught furnished the largest contingent to Canada—4,353 out of a total of 11,070, while Ulster contributed 4,001, and 691 out of the 1,656 for New Zealand.

As before stated, 10,101 persons left Ireland in 1883 with the intention of settling permanently in Great Britain—5,334 for England and Wales, and 4,767 for Scotland, the averages for the four preceding years being 6,886, and 5,695, respectively—in the case of England and Wales exhibiting a large decrease. More than one-half—2,774—of the number who went to England and Wales were Munster people, and of the 4,767 who went to Scotland, no less than 4,364 were from the Province of Ulster, 1,566 of these being natives of the County Antrim.

It may be well to add that the enumerators are instructed to make a return for each passenger ship which may sail from any port within their district, and that by "emigrant" is to be understood a person who leaves Ireland with the intention of settling elsewhere.

A table, showing the occupations and ages of the emigrants of each sex in 1883 will be found on pages 10-11. From this it will be seen that of the 55,393 males who emigrated in that year, 35,819, or 64·7 per cent., were returned as "labourers." In 1882 the proportion of labourers to the entire male emigration was 69·8, and in 1881, 68·4 per cent. Of the remaining occupations of males the most numerous were—
